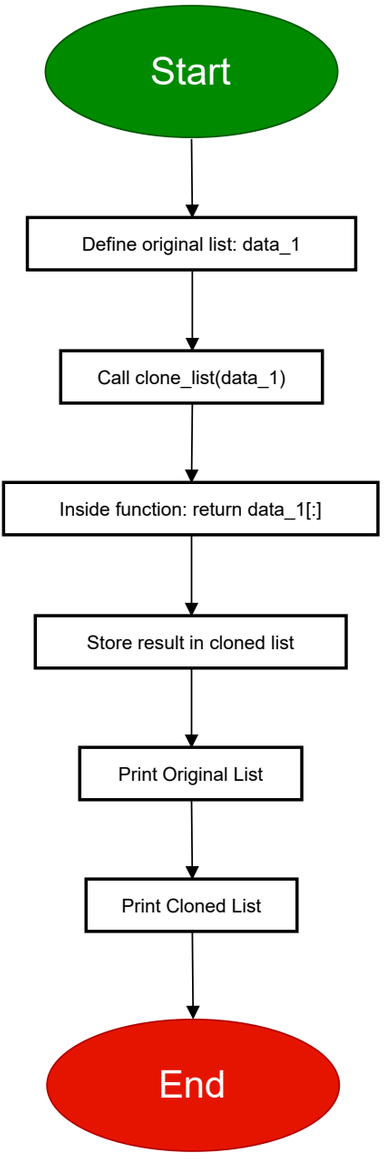
14. Write a Python program to clone or copy a list



```python
# c.  Write a Python program to clone or copy a list

def clone_list(data):
    return data[:]

data_1 = [1, 2, 3, 4, 5]
cloned = clone_list(data_1)

print("Original List:", data_1)
print("Cloned List:  ", cloned)

# Method - 2

# a = [2,3,45,6]
# b = a
#
# print(b)
```
